

WASTEWATER TREATMENT PLANT

K&C ENVIROTECH SERVICES

Water & Wastewater Treatment Solutions

ABOUT US

K&C Envirotech Services, established in 2021, is a leading water and wastewater treatment plant design and manufacturing company with operations across PAN India. Our head office is located in Mumbai.

We specialize in delivering innovative, efficient, and sustainable solutions for water and wastewater treatment systems, primarily focusing on:

- Industrial Sector
- Commercial Sector
- Building Sector
- Hotels & Hospitality Sector

Our experienced team of sales, mechanical, and electrical engineers ensures technically sound design, seamless execution, and reliable performance of every project.

WHY CHOOSE US?

✓ Integrated Environmental Solutions

We provide complete design consultancy and equipment solutions for ETP, STP, DM, TTP, and Water Softening Systems—ensuring seamless execution from concept to commissioning.

✓ Technical Expertise & Process-Driven Design

Our engineering approach focuses on performance optimization, regulatory compliance, and long-term operational efficiency. Every system is customized to meet specific industry requirements.

✓ Compliance & Sustainability Focus

We design systems aligned with environmental standards and pollution control norms, ensuring clients meet regulatory requirements while promoting water reuse and waste reduction.

✓ Cost-Effective & Energy-Efficient Solutions

Our solutions are engineered to reduce operational costs, power consumption, and downtime—maximizing ROI for our clients.

✓ Client-Centric Approach

We believe in long-term partnerships. Our team ensures transparent communication, timely project delivery, and dedicated after-sales support.

Our Vision

To become a trusted and leading environmental engineering company in India, delivering innovative, sustainable, and cost-effective water and wastewater treatment solutions that contribute to a cleaner and greener future.

Our Mission

To ensure customer satisfaction through timely project execution and strong after-sales support & promote environmental sustainability by reducing water pollution and encouraging water reuse and resource recovery.

Core Values

- Integrity
- Innovation
- Sustainability
- Quality Excellence
- Customer Commitment

Our Service

Water & Wastewater Treatment

We specialize in customized system design for:

- ✓ Effluent Treatment Plants (ETP)
- ✓ Sewage Treatment Plants (STP)
- ✓ DM Plants (Demineralization)
- ✓ Tertiary Treatment Plant (TTP)
- ✓ Water Softener Plant
- ✓ Ultra-Filtration & Reverse Osmosis Treatment (UF – RO) Plant

Equipment Supply

We supply high-quality and durable machinery including:

- ✓ Screw Press
- ✓ Sludge Dryer
- ✓ Organic Waste Converter (OWC)
- ✓ Fine & Coarse bubble diffuser – Disc & Tube
- ✓ Retrievable type diffuser arrangement in civil tank.

Operation Man-Power Services

- ✓ ETP, STP, UF-RO
- ✓ MEE / MVRE

Authorized Distributor for – Hindustan Blower & Vacuum Technology

- ✓ Air Blowers
- ✓ MVRE Booster
- ✓ Vacuum Pump

★ How We Work

- Requirement Analysis
- Site Evaluation
- Process Design & Engineering
- Equipment Selection
- Installation Support
- Testing & Commissioning
- After-Sales Technical Support

★ Industries We Serve

- Pharmaceutical & Bulk Drug Manufacturing
- Chemicals
- Petrochemical Industries
- Paint & coatings
- Dairy plants
- Breweries & distilleries
- Soft drink bottling plants
- Edible oil refineries
- Sugar mills
- Paper manufacturing
- Packaging board plants
- Leather & Tannery Units
- Galvanizing plants
- Surface coating industries
- Automotive component plating
- Petroleum refining
- Lubricant blending plants
- Fertilizer & Pesticide Industries
- Power Plants
- Industrial Parks

Water & Wastewater Treatment

♣ EFFLUENT TREATMENT PLANT (ETP)

The Effluent Treatment Plant (ETP) is designed to treat industrial wastewater generated from manufacturing and process industries. The system effectively removes suspended solids, oil & grease, organic and inorganic pollutants, heavy metals, and dissolved contaminants to ensure compliance with Pollution Control Board discharge norms.

The ETP incorporates physical, chemical, and biological treatment processes such as equalization, neutralization, coagulation–flocculation, primary clarification, aeration (**ASP / MBR / MBBR / TFM**) secondary clarification, filtration, and sludge dewatering for efficient and reliable performance.

Engineered for continuous operation, the plant is customized based on wastewater characteristics and flow capacity.

♣ Key Features:

- Effective removal of BOD, COD, TSS, oil & grease
- Customized design as per effluent characteristics
- Compact and modular options available
- Energy-efficient and low maintenance
- Compliance with environmental regulations
- Suitable for Zero Liquid Discharge (ZLD) integration

♣ Applications:

- Textile Industry
- Pharmaceutical Industry
- Chemical Industry
- Food & Beverage Industry
- Engineering & Manufacturing Units
- Automobile industry
- Sugar & Distillery Industry

We manage your Waste; you manage the Rest...!

Advanced Membrane Technology

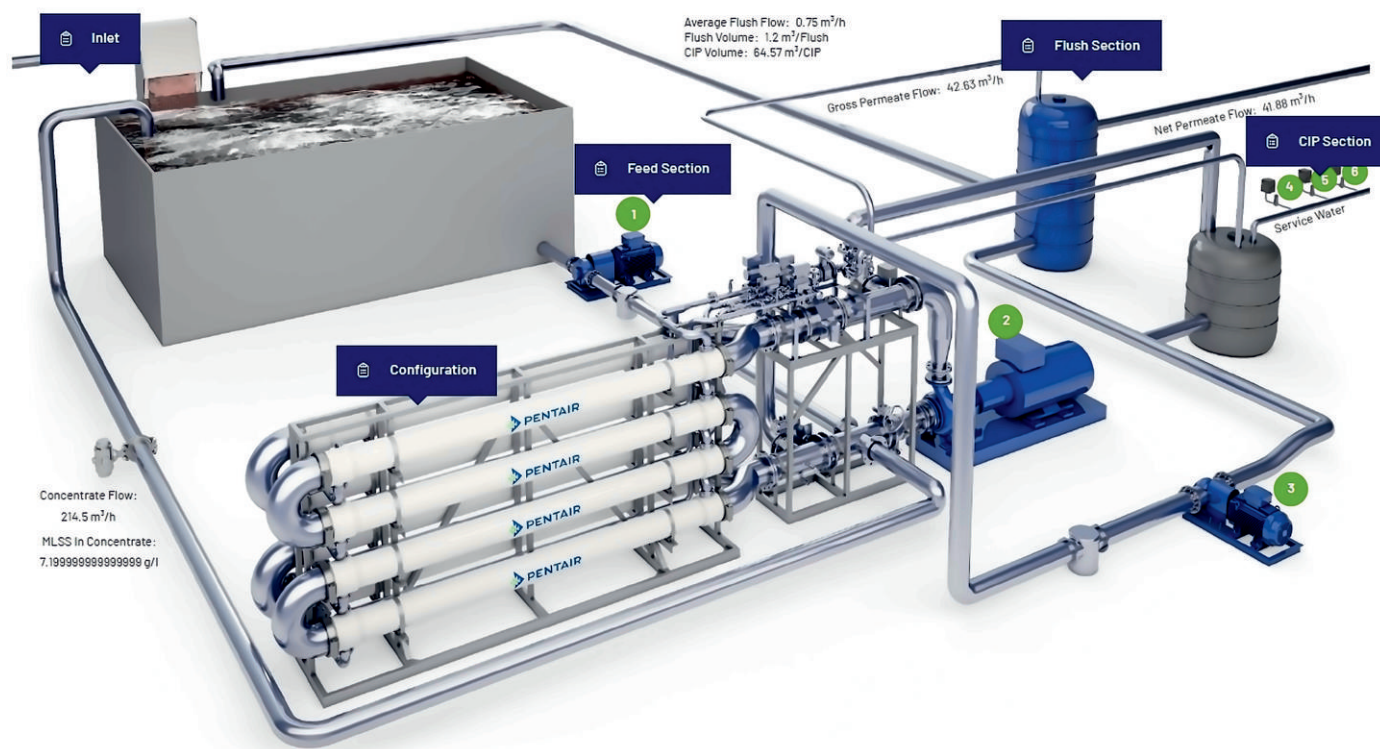

Hollow Fiber Membrane

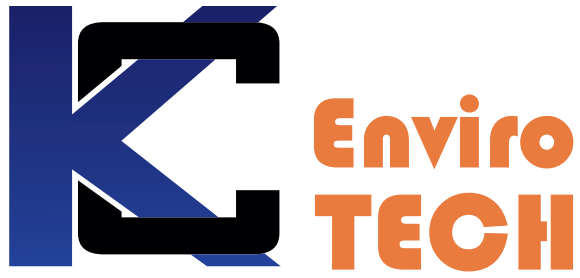

Flat Sheet Membrane

Tubular Filter Membrane
