

ULTRA - FILTRATION (UF) & REVERSE OSMOSIS (RO) TREATMENT PLANT

K&C ENVIROTECH SERVICES

Water & Wastewater Treatment Solutions

ABOUT US

K&C Envirotech Services, established in 2021, is a leading water and wastewater treatment plant design and manufacturing company with operations across PAN India. Our head office is located in Mumbai.

We specialize in delivering innovative, efficient, and sustainable solutions for water and wastewater treatment systems, primarily focusing on:

- Industrial Sector
- Commercial Sector
- Building Sector
- Hotels & Hospitality Sector

Our experienced team of sales, mechanical, and electrical engineers ensures technically sound design, seamless execution, and reliable performance of every project.

WHY CHOOSE US?

✓ Integrated Environmental Solutions

We provide complete design consultancy and equipment solutions for ETP, STP, DM, TTP, and Water Softening Systems—ensuring seamless execution from concept to commissioning.

✓ Technical Expertise & Process-Driven Design

Our engineering approach focuses on performance optimization, regulatory compliance, and long-term operational efficiency. Every system is customized to meet specific industry requirements.

✓ Compliance & Sustainability Focus

We design systems aligned with environmental standards and pollution control norms, ensuring clients meet regulatory requirements while promoting water reuse and waste reduction.

✓ Cost-Effective & Energy-Efficient Solutions

Our solutions are engineered to reduce operational costs, power consumption, and downtime—maximizing ROI for our clients.

✓ Client-Centric Approach

We believe in long-term partnerships. Our team ensures transparent communication, timely project delivery, and dedicated after-sales support.

Our Vision

To become a trusted and leading environmental engineering company in India, delivering innovative, sustainable, and cost-effective water and wastewater treatment solutions that contribute to a cleaner and greener future.

Our Mission

To ensure customer satisfaction through timely project execution and strong after-sales support & promote environmental sustainability by reducing water pollution and encouraging water reuse and resource recovery.

Core Values

- Integrity
- Innovation
- Sustainability
- Quality Excellence
- Customer Commitment

▲ ULTRA - FILTRATION & REVERSE OSMOSIS TREATMENT (UF – RO) PLANT

K&C UF with RO Plant is an advanced water treatment system designed to produce high-quality purified water by combining Ultrafiltration (UF) and Reverse Osmosis (RO) technologies. The UF system acts as an effective pre-treatment stage, removing suspended solids, colloids, bacteria, and turbidity, thereby protecting the RO membranes and enhancing system performance.

K&C RO system further removes dissolved salts, TDS, heavy metals, and dissolved impurities to deliver high-purity treated water suitable for industrial and commercial applications.

This integrated system ensures improved membrane life, consistent output quality, and reduced operating cost.

▲ Key Features:

- Dual-stage filtration (UF + RO)
- Enhanced RO membrane protection
- High TDS and contaminant removal efficiency
- Skid-mounted and modular design
- Automated operation with monitoring system
- Suitable for reuse and process applications

▲ Applications:

- Industrial process water
- Boiler & cooling tower feed
- Pharmaceutical & food industries
- Commercial complexes
- Water recycling and reuse system
